

NOTICE TO CONTRACTORS:

Churchill Valley Greenway Mine Drainage Treatment System Construction Project

Client: Allegheny Land Trust

Design Consultant: Hedin Environmental

Mandatory Pre-Proposal Site Meeting: Friday, May 8, at 10:00 AM

Meet at Site Parking Lot: 40.449456, -79.844989

Bids Due: Friday, May 29, at 5:00 PM

This project will construct a passive treatment system at the Churchill Valley Greenway in the area of the former Churchill Valley Country Club building and parking lot. Construction activities include removing the asphalt parking lot, installing a concrete intake structure to collect mine water, excavating and grading basins, installing approximately 9,000 tons of high calcite limestone aggregate in the basins, installing pipelines and plumbing, and replacing a culvert inlet. The project is designed and permitted and must be constructed in 2026.

Interested Contractors should email Alyson Fearon at afearon@alleghenylandtrust.org

Questions should be directed to Alyson Fearon at afearon@alleghenylandtrust.org and Ben Hedin at Ben.Hedin@HedinEnv.com

Bid documents will be hosted on the website below. Contractors will be notified when the bid documents are available online.
